INFORMATION FOR PATIENTS

Teeth moved **after braces?**

Private retreatment with braces or clear aligners

BELFAST ORTHODONTICS

Teeth move throughout life. If your teeth have moved after previous orthodontic treatment – often because retainers were not worn – we can usually straighten them again.

If we did your original braces

£1,245

per arch

If we did your original braces

£2,490

upper and lower

If we did not do your original braces, our standard private prices below apply. **Retreatment is private** – the health service never pays for a second course of treatment.

Braces **or aligners**

Retreatment can be done with **metal braces** or **Smartee clear aligners**. Aligners often suit minor movement (relapse). Your clinician will tell you which options suit your teeth, and the fee, at your assessment.

Private **prices**

Metal braces and clear aligners **cost the same**. The price depends on how complex your case is:

Case	Price (braces or aligners)
Super mild	From £2,900 – usually less than 2 months
Moderate	From £3,900 – usually up to 12 months
Complex	From £4,900 – usually more than a year, may involve extractions
Assessment	£155, taken off your total price if you go ahead with private treatment. Not for cross-border (HSE) patients.
Payment plan	£900 deposit (£745 if you paid the £155 assessment), then the rest in 12 monthly payments. A £150 plan fee is added to the balance and spread across your monthly payments.
Sibling or parent offer	Any sibling or parent of one of our patients who wants private treatment gets 10% off. A parent or sibling of a patient in treatment with us gets a free assessment (usually £155).

Keeping your **teeth straight afterwards**

- After retreatment you will need **retainers**. Wear your retainers **every night while you sleep** – for about 8 to 10 hours each night. Teeth move throughout life, so keep wearing them.

To book, self-refer on our website (belfastorthodontics.co.uk) or call us. Questions? **Ask your clinician during your appointment.**
